

Remarks/Arguments

This amendment is submitted further to the Notice of Allowance and Notice of Allowability mailed on July 11, 2008.

During a review of the application, it was noted that claim 19 and some of its dependent claims used inconsistent terminology in reference to power supplies. The Applicants therefore propose to amend claims 19, 20, and 22 to 24 to consistently refer to the “selected” power supplies subsequent to the step of selecting power supplies as defined in the first clause of claim 19.

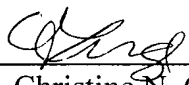

It is respectfully requested that this amendment be entered in order to correct the inconsistent terminology noted above.

Payment of the issue and publication fees is being submitted concurrently herewith, and therefore the Applicants look forward to receiving confirmation of entry of the amendments reflected in the preceding listing of claims shortly.

It is believed that the application remains in allowable form, and thus the Applicants also look forward to receiving the Issue Notification.

Respectfully submitted,

AVINASH CHIDAMBARAM, ET AL
